

Bridging the BIP to Home Handout

Functional Questionnaires

The below products have been developed and researched to support effectively identifying behavioral function. They are listed in the order in which research supports their effectiveness in function identification (Highest to Lowest). These are fantastic tools to add to your assessment kit for anytime you are completing a Functional Behavior Assessment (FBA).

1. Questions About Behavioral Function (QABF):

<http://www.disabilityconsultants.org/>

\$275 for complete kit (manual, 50 protocols, and 50 score sheets)

2. Functional Analysis Screening Tool (FAST):

<http://www.psych.ufl.edu/~iwata/BAI/Home.html>

3. Motivation Assessment Scale (MAS):

www.2monacoassociates.com

Guide & 25 forms for \$79; \$25 for 25 forms

4. Functional Analysis Interview Form (FAI):

www.brookscole.com

Technology Products

The below products are developed to aid in data collection during and after a Functional Behavior Assessment (FBA). For those applications with "Special Ordering Information", once downloaded they will work on either device (iPad/iPhone/iPod) but when searching for the application in the iTunes store, you must select iPhone Only apps and browse there.

Name of Application	Function	Works on iPad	Works on iPod/iPhone	Price	Special Ordering Information from iTunes
ABC Data Pro	Function ID	Yes	Yes	27.99	iPhone Only
Behavior Tracker Pro	Function ID	Yes	Yes	29.99
